Dr. Gomez found a  
nest of Rhesus Monkeys.  
He took one home and  
gently implanted  
in its brains  
cylinders through  
which tungsten  
electrodes could  
be placed. Later that  
afternoon Dr.  
Gomez studied  
the Rhesus Monkey.

The boy walked along the beach with his dog. He was a girl who  
loved dappled things. The sand was deep and blacker than that it was  
dappled. The dog walked through brinewater and swallowed a  
wishbone. Not until it was blessed by a sailor's priest did that gullet  
give up its bone.
